

Healthcare Leadership Excellence Program

Prepare for strategic
challenges that leaders
in healthcare face

About the Healthcare Leadership Excellence Program

The Healthcare Leadership Excellence Program is designed for senior leaders of public and private institutions and companies in the field of healthcare. Its main objective is to help them prepare for the disruptive future, which healthcare faces globally and in the region of South-East Europe. The program is holistic and covers several dimensions of leadership challenges in a coherent way. The participants will not only gain strategic insight into technological, regulatory, demographic, and other sources of disruption, but also conceptual and practical advice on how to deal with them, both on organizational and personal levels.

Program structure

6-day program delivered in three modules of two days each.

Module 1

- **Impact of technology on leadership in healthcare;**
*Prof. Nick Alexander Guldmond, Leiden University Medical Center, the Netherlands, **March 27, 2025***
- **Leadership challenges in the healthcare sector, today and tomorrow,**
*Prof. Nora Colton, University College London, UK; **March 28, 2025***

Module 2

- **Leading Self;**
*Prof. Pierre Casse, IEDC-Bled School of Management, **May 16, 2025***
- **Leading High-Performance Teams;**
*Prof. Drikus Kriek, IEDC-Bled School of Management, **May 17, 2025***

Module 3

- **Leading in crisis & Leading organizational transformation,**
*Dr. Nenad Filipović, IEDC-Bled School of Management, **June 13–14, 2025***

Who should attend

- **Senior executives** and other **senior leaders** who are **responsible for strategic decision-making** within their healthcare organizations
- **Senior consultants** and advisors in healthcare
- **Senior managers** of public and private **health insurance companies**
- **Healthcare policymakers**
- **Academic leaders in medical and health education:** deans, directors, and senior faculty of medical and health sciences institutions.
- **Medical directors, senior physicians, and heads of clinical departments**
- **Leaders of healthcare NGO / non-profit organizations**

Why should I attend

Participants will advance their leadership competencies, required for steering their organizations through the promising but demanding future of the healthcare sector. They will benefit from intense interaction with peers as well as representatives of other important stakeholders, contributing not only to a better-rounded view of strategic challenges and possible responses to them but also to strengthening personal networks in the sector. However, the benefits will not only stem from professional discussions but also from insights about own leadership behaviors and patterns of engagement in comparison to best leadership practices in the healthcare sector and beyond. Personal development and growth, as well as replenished energy and engagement focus, are the ultimate benefits of the program.

- Developing a state-of-the-art understanding of current and expected challenges in the healthcare sector globally and in South-East Europe
- Improving three critical dimensions of leadership competencies: leading oneself, leading the core team and leading the organization
- Getting developmental feedback and setting personal priorities for future development
- Growing personal network in the healthcare sector
- Creating a clear focus on the immediate areas of both personal and organizational engagement, as well as the energy to start effective action
- The follow-up support through an alumni community of practice could help participants continue their development and apply their skills post-program on concrete cases

About IEDC

IEDC-Bled School of Management is a pioneer in using an innovative approach in leadership development, an approach which encourages business leaders to take on new and more creative ways of meeting their challenges. IEDC often hosts events from various companies and organizations at its location in Bled. Our program offer includes:

- Degree Programs
- General Management Programs
- Focused Management Development Programs
- Top Executive Forums
- Custom-Made Programs

IEDC is the headquarters of

- IEDC, Postgraduate Studies
- CEEMAN - International Association for Management Development in Dynamic Societies
- WISE: Institute for Sustainability and Ethics in Rising Economies
- Team Development Institute
- Bled Institute for Leadership in Digital Transformation and AI (BILDAI)

About BILDAI

Bled Institute for Leadership in Digital Transformation and AI (BILDAI) was established by the IEDC-Bled School of Management in partnership with Roche Slovenia. BILDAI is dedicated to harnessing the transformative potential of artificial intelligence and digitalization.

The institute's core mission is to develop leaders who are not only equipped to navigate but also to shape this new era. BILDAI aims to be the premier institute driving digital transformation. We create a collaborative nexus for critical players—government entities, businesses, academia, and experts in organizational development—to exchange insights and propel leadership excellence in digital and AI fields within Slovenia, throughout the EU, and on a global scale.
