HEALTH**CHAIN**

BOOSTING DIGITAL TRANSFORMATION OF **HEALTHCARE ACROSS REGIONS**

Funded through the Interregional Innovation Investments (I3) Instrument, HealthChain brings together the public and private sectors in the regional ecosystems, to reinforce first the regional value chains and, following, to develop demand-driven digital health solutions through co-creation between Healthcare Organisations and IT companies.

Additional regions integrating the HealthChain Community of Practice

THE HEALTHCHAIN
COMMUNITY OF PRACTICE

Our Community of Practice (CoP) is now open to new regions aiming to identify new opportunities, exchange knowledge, lessons learned, and resources, promoting the dissemination of the HealthChain model to other regions. This model emphasises demand-driven, co-creative methodologies for health innovation.

HOW CAN YOU BENEFIT?

KNOWLEDGE TRANSFER
Equip the participating region with skills, insights, use cases and resources to implement a demand-driven cocreation methodology for healthcare innovation.

NETWORKING
Cultivate a European Innovation ecosystem by connecting local healthcare stakeholders, fostering partnerships, and promoting cross-border collaboration for sustainable solutions.

SUSTAINABILITY
Share insights with policy makers and EU.

THINK TANK
To identify common challenges and opportunities for concrete challenges, and prepare tailored proposals for funding instruments.

HOW TO JOIN?

To become a Community of Practice region, please contact the coordinator: myriam.martin@ticbiomed.net
